

Exhaust Diffuser Systems

With over 25 years of manufacturing experience, INNOVA Consolidated Fabricators™ (ConFab) provides proven design and manufacturing processes and fixtures for new exhaust diffusers.

With ConFab, you don't need to settle for "as good as the OEM." We regularly apply our accumulated knowledge, experience and the latest design tools to design longer life, more reliable diffusers.

Integrated Exhaust Systems...Guaranteed to Deliver Optimal Performance

ConFab can provide a complete integrated system for gas turbine exhaust, designed and guaranteed to operate efficiently together. By combining an INNOVA Braden® plenum with ConFab hardware and diffuser, we can assure a safer, more efficient and easier-to-operate system.

We offer the manpower, equipment and experience to install on your site...or we can provide detailed erection drawings and procedures for your own crew.
